I MY YORK, AND 73.—The stock market became exceedingly dult to day and the expected closes working of the money market can ed a dropping tendency in pieces sifes the first hind hour, and this, with lower op ning resulted in learning most of the stocks a little lower for the day, while the money market is now comparatively easy. Banks and trust companies are unwilling to make time learns. The markets after the discline reacted slightly in the last hour, but the clove was rallers in 2 v. emerally 61 small

ractions on ler opening prices. Government bonds to I. Instrond bonds were again very dull. State bonds featureless.

MEMPHIS DISTRICT.

Cotton Crap Report Much More Fay-rable Than for the bam P ried Last Year-Corn Conditions Much Improved.

MEMPHIS, TENN., Aug. 29 .- The reglar monthly cotton report for the Memweather during the month has in the main been favorable, and 328 of our 388 riod. There are some complaints of drouth prevailing in sections of Arkausas, while portions of Alabama and Tennessee report excessive rains. The plant, as a rule, is fruiting well and retaining its squares and bolls, although in a few localities of Arkansas the report is made of shedding due to drouth. The present condition of the crop is encouraging, and gives brighter promise of a full yield than has been ourprovince to chronicle for the past three years, although reports are made of damage to crops from sections in all of the four states, due to rust, blight and other causes. But the percentage is very small and in none of the states will exceed 6 per cent., and in Mississippl, S per cent. Picking will not become general throughout the district until September 1. Rains of the past tour days may have possibly a tied to the damage from this cause in Tennessee and Alabama, but they have not been general in their nature and in many localities will prove beneficial. condition of corn throughout the district Improved since our last report and indications now point to a yield of full 75 per cent, of fair average crop of this

LARD COMPOUND.

The Lard Bill's Passage in the House Thursday Causes Some Fight-ment on 'Change-Its Chances in the 'enate-

Epecial to the Gazette.

NEW YORK, Aug. 29 .- The passage yesterday in the house of representatives of congress of the lard bill caused a flutter of excitement on the produce exchange. The measure interests provision men, lard refineries, cotton seed oil pressers and retail dealers of lard gener-At the office of the American cotton oil company it was said that if the bill became a law a severe blow will be dealt to Southern farmers, for they rely largely upon seed for their profit. Pinuters who produce 10,000 bales of cotton gets from that cotton 500 tons of seed, which would be worth from \$4000 to \$5000. Immense quantities of cotton seed oil are used in the manufacture of compound iard, and if farmers are deprived of that outlet they would have to find some other market. It is asserted that only about 20 per cent. of bog's fat goes into the manufacture of the compound lard, 60 per cent of the compound being cotton seed oil and 20 per cent. tallow. Enemies of the bill say the bill will not pass the senate, and if it does they will t st its constitutionality, embracing in

tional right of Speaker Reed to count a quorum present when the bill was

Stubblefield Walves Examination. Special to the Gazette.

CORSICANA, TEX , Aug 29 .- John M. Stubblefield who killed C. E. Hunt at Kerns, the 23rd inst. was arraigned before Justice McConnice here to-day for examining trial. He waived exami-nation and was remanded to jail for trial before the district court next October. His counsel will apply writ of habeas corpus returnable before the district judge in chambers in order to have him bailed. He can give a good bond and will no doubt soon be released.

FRIGHTFULLY MANGLED.

A Nitro Giycerine Expinsion in a Road Wagon Instantly Kills a Han and Horse.

FINDLAY, OHIO, Aug. 29 .- George Struble, an oil well spotter, was returning from a well with what he supposed was a lot of empty glycerine cans. When within seven miles of this city a fenrful explosion occurred that was plainly heard here. Struble was instantly killed, his body being dismembered, while his wagon and one horse was reduced to atoms. A careless joit in the road evidently set off the few drops of nitro glycerine remaining in each can.

Team Killed by Lightning.

Correspondence of the Gazotte. Ross, TEX., Aug. 28 .- Charles Howand had the misfortune to lose a splendid team of young horses during the shower yesterday evening by lightning, Mr. Howard, accompanied by his uncle, Mr. Sudie, had been handing water from Mr. Duffel's tank, and had filled up their barrels and were returning when the shower overtook them right in front of Mr. Duffel's dwelling. They drove of Mr. Duffel's dwelling. They drove under a large tree for shelter. After it rained a short time they concluded to go to the house, got out of the wagon and dit so, leaving the team's anding under the tree. They had barely reached the and also to shad, averpool unares opened weak at a decile of a reproof unares opened weak at a decile of a ran down its bady, jumped from the as opening and closed steamy to 5 points tree to the casting on the ends of the single tree; thence up the togs, killing both the horses instantly. The house is only a short distance from the tree and the inmutes were severely shocked, but none seriously burt. Mr. Howard is a poor man and the neighbors talk of assisting him in the purchase of another

A STEAL GOVERNOR.

A Desperate Policy to Secure a Republican Mel rivy in the Oklahoma Legislature. Special to the Gazette.

GUTHRIE, O. T., Aug. 29 .- Governor Steele has at last shown his autocratic hand by his action in refusing to certify the election of C. F. Grimmer, the independent councilman elected from No-Man's Land, this territory. Grimmer was elected over the Republican nominee by something more than 100 votes. The phis district, which embraces West Ten- due form his certificate of election, and nessee, North Mississippi, North Arkan- to-day when he presented himself to the sas and North Alabama, published by governor he was informed that unless he Hill, Fontaine & Co. to-day says: The Republican cancus and abide by its mandates his seat would be contested and he main been favorable, and 328 of our 388 would be ousted. Grimmer is a correspondents report it much more favorable than last year for the same pefact had come to the knowledge of his excellency and in order to carry out his rule or ruin policy he stultified himself to the extent indicated. Grimmer is now between the devil and the deep sea. He realizes the fact that the governor has arbitrary powers assumed it not specified, whereby he can say go and he goest. There is much indignation expressed at such unwarranted proceedings, but there seems to be no remedy against them. Grimmer will probably accede to the demands rather than surrender his seat. The Democrats advise him to stay by his principles and force the governor to put himself on record as a disciple of Dictator Reed by the commission of an act without a precedent. It is a case of desperation on the part of the administration, but should the programme be carried out it is doubtful whether or not the Republicans could effect an organization. One Republican has already forsaken them and it is believed if the present course is persisted in others will follow to-morrow,

Wheat Opened Weak, Fluctuated Narrowl_ and Closed at a Decline-Coffee and Wool Earket Unchanged.

Dally Review.

FORT WORTH, THE., Aug. 29 1001. Partly cloudy and warm to-day. Business, however, moved nicely during the day, dry goods, clothing and groceries being the features. The general markets are in fair condition; adequate supplies of all produce, vegetables, etc. are received daily from wagons and rail ship-ments. Fruits are pientiful, grapes are in light supply just at present, but to-morrow (Satur-day) good shipments are expected. Poultry, eggs and butter are in fair supply at firm figures. Wheat is noted as firmer at better figures. Cot-ton receips moderate. Changes in any com-modity only slight.

Braistret's eave that the delay of the new

modity only slight.

Braistreet's eaps that the delay of the new wheat crop in causing available stocks to increase from week to week is rapidly approaching a point which may be ranked as unprecedented. It is now near the lat of Sep ember, and one finds that available stocks of wheat east of the Rocky mountains in the United States and Canada were on August 16, 438, 629 hushels smaller than on august 9, a decrease due practically to a heavy failing away in stocks in private elevators at Minneapolis and in stocks stored at Fort William and Reewatin. Ontario, and Lake Superior ports. The official "visible supply" report ignores some available stocks, and so is unable to report the situation with even approximate eractness. Stocks of Indian corn decreased as well, 1,321,67 bushels, the heaviest declines being in stocks on the Eric canel, at Burlington, lowa, at Chicago, afloat at New York city, at Philadelphia, at New York city and at New Orleans stocks of oats, on the other hand, increased 34,14 bushels, and those of rye 45,611 bushels, white secumulations of barley decreased 16,882 bushels.

Special telegrams to the daily papers point out that, according to the report of the census bureau, the production of pig from for the year ending June 30, 1850, was the largest in the firstory of the industry, amounting to 5,79,775 tons of 2009 pounds, as compared with 1761, 1761, 1761 tons in the census year 1886, and 1,52,821 tons during 550, From 1850 to 180 the increase maounted to 1,728 200 tons, nearly 5 per cent., while from 1850 to 1800 the increase was 5,78,755 tons, over 130 per cent. The following shows the projuction of pig from in various generaphical sections of the country in the census generaphical sections Bra istreet's ays that the delay of the new

geographical sections of the country in the cen-susyears 1850, 1880 and 1890, in shirt tons. The statistics for 1870 and 1880 are for the census years ended May 31, but for 1890 they cover the
